# About Us

ShubRaj was founded in the year 2018 with Head Office in New Delhi and today we have a presence in all the major locations in India. We are an ISO 9001: 2015 certified Company with a CRISIL SME-1 rating which indicates the highest creditworthiness. We have been creating value for our clients in India by delivering world-class Engineering and Manpower Outsourcing Services.

Our dynamic approach to problem-solving enables us to deliver quality services on time coupled with consistent performance to our clients in India. ShubRaj has built long-standing relationships with its clients, working with many of them for several years. We deal with HVAC, Electrical, Mechanical, Civil, and instrumentation services along with facility management.

ShubRaj was formed with the principal value of providing a point source for “OCM” (Outstanding Customer Services) relating to Integrated Engineering Services & Facilities Management. The business is formed with the vision to provide personalized Customer-focused services. ShubRaj is unique and different from other service providers, ShubRaj has rich experience of six years in the field of HVAC, Electrical, Mechanical, Civil, and instrumentation services along with facility management. ShubRaj has been meeting the growing needs of their respective fields that have set new standards in quality service excellence. ShubRaj always strives to exceed customer’s proactive customer-centric approach.

# OUR SERVICES

## HVAC & R

SHUBRAJ TECH PVT LTD is a reputed HVAC turnkey company providing complete solutions for Air Conditioning, Air cooling, Ventilation, Fire Fighting, Low Transmission Electrical, Indoor Air Quality, and Building Management Services for office spaces, universities, hospitals, airports, and government organizations. What began as a small journey of service provisioning for smaller machinery, the company gradually established itself and entered into complete service solutions.

We are now an ISO 9001:2015 certified company. Our profound knowledge of one decades in different business functions within various industries allows us to deliver innovative technology-based solutions. We adhere to the timely delivery of products and services at the most reasonable and competitive prices with integrity, trustworthiness, and quality control.

SHUBRAJ TECH PVT LTD is a quality-conscious company with experienced staff who look to provide quality services to our clients. Our team of professionals looks with a client-centric approach always ensuring our services meet client expectations.

## Civil Works

- \* Excavation & Earthwork Restoration, Site cleaning work of the ground in all kinds of soil.
- \* Reinforced Cement Concrete & Plain Cement Concrete works, Prefabricated Concrete Structure.
- \* Foundations for specialized equipment like reciprocating compressors, pumps, filters, gas after Coolers, Condensate tanks, Skids, Gas Engine Generator, Diesel Engine Generator, Scraper traps, stacks, Blow Down Silencer and other equipment.
- \* Demolishing/Dismantling/Cutting of existing RCC/PCC/Brickwork/Road etc • Painting Job of Steel as well as Concrete Structure.
- \* Construction of Buildings, Boundary & compound wall, Pathways, CC Road, and WBM Road.

## SHUBRAJ undertakes the Operation and Maintenance of Utilities:

Boilers  
Chillers  
Air Compressors  
HVAC  
Cooling Towers  
Diesel Generators  
Electrical Installations  
Water Treatment Plant  
Effluent Treatment Plant  
Fire Hydrant System  
O & M of Electrical Equipment's

**We undertake complete Electrical O & M which include following equipment's:**

Switch yard, Substations

H.T & L.T Transformer

Control Panels

Motor & Drives

Lighting, Earthing & Cabling

Safety System

ANI undertakes Operation and Maintenance of Instrument Works:

Analysers

Valve Positions

Impluse Tubing & Accessories

Automation system like PLC / DCS

Safety / Security System

Plant Shutdown System

CCTV / Smoke Detection / Fire Alarm System

Access Control System

Public Address System

## Manpower Services

Efficient manpower is the key to success for every organization. We stand for providing impeccable manpower services for our clients within the stipulated time frame. SOCPL Equipped with a well-maintained database of resumes and possessing a team of high-end professionals, we have carved a niche for ourselves in the field with our recruitment services. We have catered to the needs of a number of industries including government offices, IT solutions, health care, hospitality, engineering, retail warehousing, various supply chain services, banking and finance, outsourcing industries, etc.

In addition to all, we would also partner with the client on the productivity issues As a part of growth plans for the organizations we would look in the building expertise in:

- a) Manufacturing,
- b) Warehouse Management,
- c) Store operations.

## Plumber

Plumbers are expert professionals who install, repair, and replace sinks, blocked pipes and drains, taps and pipes, water tanks, sanitation units, wash basin, commode, and other drainage fixtures in commercial and residential settings.

## Fitter

Constructing structural components from raw materials. Using welding equipment to fuse structural components. Inspecting fabricated components to ensure that they are the correct size. Utilizing shears, power saws, cutting torches, and chipper knives to cut structural components as needed.

## Welder

Welding is used to join together two separate pieces of metal. By creating heat and pressure through the surfaces of the metal, boundaries on the surface will disappear and be connected through crystals developing on the surface to connect the two pieces.

## Electrician

Electricians offer a wide range of services including electrical installations, repairs, and maintenance. They can handle tasks such as rewiring, circuit breaker replacements, lighting installations, electrical panel upgrades, and troubleshooting electrical issues.

## House Keeping & Facility Management Services

At Shubraj, we dedicate ourselves to providing you with the best facilities management services to improve the daily running conditions of your workplace. We provide a complete set of services tailored to your company's needs, activities, and image by providing a single source of contact for all purposes. Our facility management services also include specialty cleaning such as carpet cleaning, insecticide treatment, glass cleaning, floor polishing, etc. We are providing facility management services in PAN India.

### Housekeeping Services

The team at LB Bonafide works closely to provide dedicated and seamless facility management services. We are committed to providing cost-effective facility management services, which are custom-made to suit your conditions. We can also provide Office Boys, Drivers, Pantry Boys, Electricians, and Plumbers on demand. We are providing facility management services in PAN India.

## Facility Management

Our team of trained and experienced professionals ensures that your trained and experienced team ensures that Housekeeping and Allied Services of Facilities Management is delivered on time and maintains high standards of the same. We are providing Housekeeping and Facility Management services in PAN India.

## Production Support Services

360° Production support functions enabling greater focus on core business activities with increased efficiency, controlled time, and optimized costs.

1. Production Support activities
2. Stores and Inventory Management
3. Material handling and movement
4. Equipment maintenance

## Consulting

SHUBRAJ with its expertise in the Operation & Maintenance of Energy & Infra assets offers to inspect & verify, acquire, operate, and maintain brownfield assets being offered (as part of the asset monetization plan) by Public & Private Oil & Gas Companies. In addition, for greenfield projects, SHUBRAJ can provide services as a DBOM (Design-Build-Operate-Maintain) contractor.

### Asset Reviews and M&A Assist Services

1. Technical Mapping: Equipment processes, stocks & spares, technologies, complexity factor, in-place Quality Assurance (QA), Capacity evaluation, physical audit, life cycle/residual value/ line upgradation, technical resources, optimization levels & permutations.
2. Techno-Commercial: Operating models, mixes & merchant operation modeling, zero base & baseline evaluation, cash flows, funding, ROI, ROR calculation
3. M&A Assist Services:
  - a. Desktop Techno-Commercial Evaluation & Modelling
  - b. Data Center Study & Analysis and Regulatory Evaluation
  - c. Revenue Models, Upside Potential and SWOT Analysis
  - d. M&A Process Lead

For Enquiries kindly contact us at [info@shubraj.com](mailto:info@shubraj.com)

## Testing & Commissioning

No matter what your energization needs, maintaining efficient, long-term operations of your power delivery equipment is essential to success. T&C's vast knowledge of electric power systems design and construction enables us to develop testing and maintenance programs to suit your needs today and down the line.

T&C testing and commissioning provides services that promote long-term, efficient operation of electrical generation and delivery systems. We mobilize teams to all parts of the world, servicing power delivery systems from 415V to 765 kV and generation systems up to 250 MW.

### Acceptance Testing

Acceptance testing determines that each piece of electrical equipment is ready for energization and that it will operate as designed and perform as an integral part of the system. Test personnel inspect and provide acceptance testing on each piece of the equipment to verify it meets specification to, energize and verify the overall installation of the system conforms to the drawings.

## Energization

Once our team determines that individual pieces of equipment are operating properly, our testing engineers develop an energization plan. We energize the entire system to verify it is operating as intended and meeting design requirements. Our clients receive full documentation of the system's performance and integrity.

### Testing and Commissioning Services:

Acceptance testing

Relay protection and controls

Protective relaying systems

Substation commissioning

Energization

Field engineering

Arc Flash safety training

Electrical Equipment refurbishment & repair

Electrical System Upgrades

Troubleshooting of electrical equipment or systems

## Integrated O&M Jobs

- \* Mechanical: Monitoring, Maintenance & Repair of mainline valves, control valves, pig launcher & Receiver barrel, Pumps & Generators, NDT, HT, UT, RT.
- \* Electrical maintenance: Substations, MCS, Electrical Appliances, Lighting, PCC & MCC Panels, UPS, Battery Banks, Laying of all types of HT/LT cables (PVC/XLPE/Armoured/Unarmoured/Power/Control/ Signalling), Electrical Heat tracing cables.
- \* Instruments & Controls: Measuring Instruments, Turbine Meters, Ultrasonic Gas Meters, Flow & Pressure Regulators, SRV, PT, TT, Up-keeping of SCADA system, Leak Detection System.
- \* Corrosion Control Services: Cathodic Protection system including sacrificial Anodes Cathodic Protection & Impress Current Cathodic Protection (ICCP), CP design and construction, Supply, Installation, Commissioning, Monitoring & Maintenance of CP system,
- \* Coating surveys: CIPL, DCVG, CAT, PSP on-OFF, Interference Problems & Mitigation Services
- \* Assistance in pigging Operations

- \* ROU maintenance: Supply & installation of the pipeline markers Viz. Boundary Markers, Warning Markers, KM Markers, Aerial Markers, Direction Markers, External Painting & Protective anti-corrosive Coating, Restoration of damaged / fallen CP TLP Post, Marking of ROU extent & locating of Pipeline/ OFC with help of pipeline locators, ROU Patrolling, ROU obstruction/ hindrances/problems Records.
- \* Handling Emergency & Oil Spill services

## Industrial Construction

- \* Civil, Structural and Architectural work for specialised industrial installations viz. Local Control Center, Maintenance building, Electrical Substation, Air compressor house and Fire Water pump house, Raw water sump and pump house.
- \* Foundations for specialised equipment like reciprocating compressors, pumps, filters, gas after Coolers, Condensate tank, Skids, Gas Engine Generator, Diesel Engine Generator, Scraper trap, stacks, Blow Down Silencer and other equipment.

## Annual Maintenance and Preventive Maintenance Services

Regular maintenance is key to extending the lifespan of instrumentation systems and preventing costly downtime. Our annual maintenance programs are tailored to the specific needs of each client, while our preventive maintenance services help identify and address potential issues before they escalate.

SHUBRAJ TECH PRIVATE LIMITED

## Solutions Designed for Your Issues

You can count on SHUBRAJ TECH PVT LTD, team of experts to design solutions from the practical to the creative for the substation issues you face today. We're also adept at extending the life of your substation facilities through upgrades and expansions.

With SHUBRAJ TECH PVT LTD you gain a trusted advisor who supports your vision right from the start and stays with you through to commissioning. If you have a substation project, we are ready to help.

### Substation Design and Support Services:

- New substation design
- Modifications, additions and upgrades
- Site work and access roads
- Protective relaying
- SCADA systems
- Communication systems
- Automation systems
- Alternative analysis
- Coordination of multi-station area improvements
- Troubleshooting
- Maintenance programs
- Material procurement

## Plant Commissioning and start-up:

Commissioning and start-up is the final step before production runs in a processing plant. Uniquely poised to perform commissioning and start-up and the accompanying troubleshooting and problem-solving activities, whether as part of a design/build project or as a final step in an ongoing project.

## ENGINEERING

ShubRaj started the company as an engineering Design and understood the requirements and needs of design offices. ShubRaj can provide "Secondment of Designers and Design Engineers" for Engineering projects and FEED jobs.

We can deploy the following Personnel:

- ✓ Managers
- ✓ Sr. Engineers
- ✓ Engineers
- ✓ Designers
- ✓ Draftsman
- ✓ Modelers
- ✓ Document controller
- ✓ Technical Writers

## SHUBRAJ TECH PRIVATE LIMITED

Our engineers/designers are experienced in software PDS / PDMS / SP 3D / Intools / ETAP / SACS / StaddPro / PV Elite / HYSIS / SP P&ID / Tekla / CADWORX / AutoCAD / Microstation / Raceways among others.

- ✓ Civil & Structural
- ✓ Process
- ✓ Piping - Stress / Material / Layout / Design
- ✓ Mechanical – Static, Rotary & Package
- ✓ Electrical
- ✓ Instrumentation & Control
- ✓ Safety
- ✓ Planning
- ✓ Cost Control
- ✓ Expeditors
- ✓ Buyers

Currently, ShubRaj have more than 250 engineers/designers working at GAIL, NTPC, BHEL, BCPL, KONKAN LNG LIMITED, MINISTRY OF DEFENSE, AISIN, HOLLISTER ETC various Engineering companies in India.

# INFRASTRUCTURE

We have been associated with various clients by deploying technical manpower for their various Roads, Highways, Bridges projects. We have deployed more than 50 Engineers, Technicians for various Road, Highway / elevated corridor, bridge projects in India.

## We can deploy:

- ✓ Managers
- ✓ Sr. Engineers
- ✓ Engineers
- ✓ Supervisors
- ✓ Inspectors
- ✓ Highway Engineer
- ✓ Quantity Surveyors
- ✓ Land Acquisition/ Liasoning
- ✓ Safety
- ✓ Planning
- ✓ Cost Control
- ✓ Expeditors
- ✓ Buyers

We can support you for the following categories:

- ✓ Civil
- ✓ Mechanical
- ✓ Structural
- ✓ Electrical
- ✓ Instrumentation & Control
- ✓ QA/QC Engineers
- ✓ Safety
- ✓ Planning

SHUBRAJ TECH PRIVATE LIMITED

# PETROCHEMICAL

India is one of the largest markets in the world for the petrochemical industry. According to an estimate, India is expected to drive over 10% of the world's growth in petrochemicals and will generate over 1,00,000 jobs over the next decade.

With the rapid increase in consumption and globalisation, finding skilled employees to fulfil petrochemical and refinery staffing needs of companies has become increasingly difficult. As a result, a number of recruitment agencies have come up in the field of petrochemical and refinery staffing, and provide talented individuals to the companies.

Using a leading recruitment agency to fulfil your petrochemical and refinery staffing needs helps you find the right talent with the right expertise in the field, which further saves a lot of time, effort, and money on your part. However, finding the right recruitment agency for your petrochemical and refinery staffing needs is important.

## Why ShubRaj?

Since its inception, ShubRaj, as a leading recruitment agency, has developed a strong team of experts and talented individuals to oversee Project Monitoring and Construction Supervision Jobs as a part of its Petrochemical and Refinery Staffing solutions. We have more than 250 Engineers deployed at various projects to support our clients to closely monitor the progress of the projects. We have a highly specialized team of Inspection and Safety Engineers who assist our clients as per their project requirements.

We also can handle the Total Operation and Maintenance and Shutdown needs of continuous process plants and power plants. As a leading petrochemical and refinery recruitment agency, ShubRaj Tech has a vast pool of skilled manpower on its payroll that is available at short notice for undertaking O and M and shutdown jobs promptly. We have a very experienced pool of engineers who support and guide field teams on all technical matters.

As a leading recruitment agency in the country, we also offer comprehensive solutions for start-up, Pre-commissioning, and commissioning. As commissioning of any plant requires a thorough understanding of the process, our petrochemical and refinery staffing experts make sure that you get the most qualified personnel who are able to complete this job within the stipulated time period. Shubraj also provides assistance in commissioning and guidance through the process of commissioning.

**Our experts of Petrochemical & Refinery Staffing can deploy the following Technical Manpower in all disciplines like Civil & Structural / Process / Electrical / Mechanical / Piping / Instrumentation & Control among others:**

- ✓ Design Engineers / Designers / Modelers
- ✓ Project Managers / Engineers
- ✓ Planning Engineers
- ✓ Construction Engineers / Supervisors
- ✓ Inspection Engineers and Supervisors
- ✓ Safety Engineers / Supervisors
- ✓ Ware Managers / Supervisors
- ✓ Pre-Commissioning and Commissioning engineers / Supervisors / Technicians
- ✓ Maintenance Engineers / Technicians

**Our Clients:**

We have been able to provide Petrochemical & Refinery Staffing services to some of the biggest names in the sector. Our client list includes companies like IOCL, BCPL, GAIL, HPCL among others.

# RAILWAYS

With the rise of the Indian middle class and rapid urbanization, India has emerged as a fast growing market for rail systems like metros, monorails, and such. The rapid growth of various cities and the migration of population to these centers have created a need for an efficient, pocket-friendly mode of transportation. Currently, 10 cities have an operational rail network spanning 536 km and it continues to grow at a break-neck speed. The network has grown significantly over the past 12-13 years, up from about 90 km in 2006. With the Metro Rail Policy 2017 in place, several cities are ready to roll out work to develop their respective urban transit systems. In the last five years, a number of new metro projects with a total length of about 248 km have been approved for implementation. Further, about 750 km of metro rail network and 373 km of rapid rail transit network is under planning in various cities.

Furthermore, the rapid urbanization and increase in demand of connectivity has given rise to a number of railway projects. With the aim of connecting various cities to the urban centers, the govt. has rolled out many projects related to railways. This significant increase in the demand for transit systems has given rise to a number of cushy job opportunities for every position. Recruitment for Metro and Railways has increased, and so has the need for recruitment specialists.

As staffing for Metro and Railways requires specialized experience and an in-depth knowledge of the sector, not everyone can fulfil the demands of the clients. Finding skilled workers with adequate knowledge, correct attitude and aptitude is a need of the hour. Although there are a number of agencies who provide services in recruitment for Metro and Railways sector, only a few can claim to be at the top of the game.

With half decades of specialized experience under its belt, ShubRaj Tech is a leading staffing services agency providing support to EPC Companies during construction, and commissioning of Metros and Monorails. We are actively involved in the recruitment of some of the biggest Metro and Monorail projects from all over the country.

We have provided staffing services and done recruitment for Metro projects during the construction of Delhi and have deployed more than 100 engineers.

Our staffing services are not limited to the construction and commissioning phase. We also support organizations in the O and M phase with technical services. We can also help with the recruitment of specialist manpower like signaling/ planning etc.

ShubRaj Tech's Staffing services can provide skilled Engineers and Technicians for the following positions:

- ✓ Planning
- ✓ Civil and Structural
- ✓ Mechanical
- ✓ Electrical
- ✓ Instrumentation
- ✓ Project
- ✓ HSE
- ✓ Signaling
- ✓ Testing
- ✓ Inspection
- ✓ Supply Chain
- ✓ Logistics
- ✓ Technicians
- ✓ Loco Pilot

# TELECOM

With the rapid advancement of technology, Telecom is one of the fastest growing industries in the world. According to a report by GSM Association (GSMA) in collaboration with Boston Consulting Group (BCG), India is currently the world's 2nd largest telecommunications market with a subscriber base of 1.20 billion and has registered strong growth in the last decade and half. The Indian Telecom sector is growing rapidly and is a major contributor to India's Gross Domestic Product (GDP). According to an estimate as of 2019, India holds the world's highest data usage per smartphone at an average of 9.8 GB per month. This is further expected to rise to 18 GB by 2024. It is also estimated that over the next five years, rise in mobile-phone penetration and decline in data costs will add 500 million new internet users in India, creating opportunities for new businesses.

With the advancements in the sector happening at a break-neck speed, the need for skilled professionals with desired qualifications is also increasing. This is where specialized Telecom staffing services can help the sector with their expertise of the recruitment domain. A number of recruitment agencies claiming to provide specialized telecom staffing services have sprung up due to this exponential increase in the demand and the sector.

However, with the rapid advancement in technology and cutting-edge innovations, telecom staffing has become much more specialized and difficult than regular recruitment. This sector requires specialists and experts to help them recruit the crème-de-la-creme of the talent pool who can keep up with the advancement in technology and innovations in the sector. Only a few recruitment agencies, with their specialized telecom staffing services, can claim to provide such services to organizations in the sector.

Amidst this rapidly growing need for specialized recruitment, ShubRaj Tech, with its half decades of experience and specialized team of recruitment experts for the sector has positioned itself as a leading Recruitment Agency providing one of the best Telecom Staffing Services. With our team of domain experts and recruitment specialists, we have been able to provide clients with customized Telecom staffing services that cater to their specific requirements. With our vast database of talented professionals, we are an ideal telecom recruitment agency that can provide you with the right professionals for your organization.

ShubRaj Tech, as a telecom recruitment agency, has been associated with multiple companies for telecom projects. We have provided telecom staffing services to some of the biggest names in the business which started with Reliance Infocomm and then added VSNL (Now Tata Telecommunication), Ericsson, Alcatel Lucent, IDEA, Vodafone, and Reliance Jio among others.

**Service Portfolio:**

- ✓ Laying, testing, Commissioning of Polyethylene & GI Pipeline
- ✓ Preliminary Route Survey, Trenching
- ✓ Electro fusion jointing; Pneumatic Testing
- ✓ Radiography, Hydro testing of Steel Pipeline
- ✓ Laying of HDPE Conduit and optical fibre cable
- ✓ Commissioning of network; Conversion of Appliance.
- ✓ Final Documentation
- ✓ Conducting Safety training on regular basis

ShubRaj works with companies like Indraprastha Gas Limited, GAIL, Central U.P. among others.

# INFORMATION TECHNOLOGY

India is one of the biggest players in the IT sector in the world. ShubRaj Tech is a leading player in the IT staffing and technical manpower supply industry. In today's competitive landscape, an organization's most valuable resources are its employees. Thus, it's important to find the right people, with the right qualifications, for the right role, which can be a challenging task.

Our IT Staffing services are founded on the long-standing relationships we build with our valued clients. We offer contract/temporary recruiting IT staff services to clients who want to hire the very best from a pool of talented and dedicated professionals for immediate project requirements.

ShubRaj's IT staffing services have the resources and infrastructure to mobilize right from a single resource to an entire team based on the project requirements. Clients also get the flexibility to ramp up or down their team size depending on the project's requirements while we take care of everything else.

# TECHNICAL STAFFING

As one of the fastest-growing economies in the world, India's business ecosystem has been continuously evolving over the years. This rapid change in the ecosystem has also impacted the demand for talent. The continuous advancements in technology coupled with the ever-increasing demand have created a dearth of talented and skilled individuals in the workplace. In this demanding market of cut-throat competition, companies need the right talent with the right set of skills and qualifications to stay ahead of the curve. To fulfill this need and provide organizations with the right group of talented individuals, several recruitment agencies have come up who claim to provide staffing services. However, only a few agencies have the right set of experience and specialization to fulfill the demands of the clients.

In 2018, ShubRaj Tech carved out a niche service of Technical Manpower Deputation which can also be called Outsourcing, Staffing, Contract Staffing, and Secondment. This model was gradually extended to other companies and now the industry has accepted the Contract staffing services as an important part of the business.

As a specialist Staffing Solutions Company, Shubraj provides the following staffing services:

- ✓ Project Management
- ✓ Construction Supervision
- ✓ Procurement Assistance
- ✓ Expediting
- ✓ Shutdown
- ✓ Manpower Outsourcing / Technical Staffing / Manpower Deputation
- ✓ Inspection Services
- ✓ Pre-Commissioning and Commissioning Services
- ✓ Operation and Maintenance

# MANPOWER OUTSOURCING

ShubRaj Tech pioneered the concept of Technical staffing services in India. Shubraj started with a humble beginning and is now a descent Technical staffing company with more than 300 engineers on payroll and working at client's locations.

ShubRaj Tech caters service to the following verticals:

ShubRaj can provide engineers / Designers/technicians right from conceptualization of the project to Design to Construction to Pre-commissioning & Commissioning to Operations and Maintenance of the plant. ShubRaj Provides project managers / Inspectors / Safety personnel for the smooth function of the projects. It can also mobilize large manpower for shutdown assignments of 15 days to a few months. ShubRaj has a large in-house database ie more than 100,000 resume data base and a very strong referral program to attract talent from the industry. Its recruiters are well-trained and can identify the candidates meeting your project requirements.

ShubRaj can deploy Technical staff in the following fields:

- ✓ Engineering Design
- ✓ Project Management
- ✓ Construction Management
- ✓ Safety / QHSE
- ✓ Store Warehousing
- ✓ Pre Commissioning and Commissioning
- ✓ Operation and Maintenance

Currently, ShubRaj works with EPC, Manufacturing, and Inspection companies.

# EXPEDITING

ShubRaj Tech is North India's leading company in skilled manpower supply for the Engineering, Procurement, and Construction space. We deliver integrated services for Commissioning, Pre-Commissioning & Commissioning. We are a strong and motivated team of engineers and technicians who are passionate about helping you meet your project deadlines. Commissioning is a mission-critical stage for an engineering project of any scale, which demands a high level of technical excellence and operational expertise. We leverage our half decades of acumen and experience to offer skilled manpower to make your project a grand success. In the project pre-commissioning stage, we make detailed plans and submit them to the client for approval.

We provide the following Pre-Commissioning & Commissioning Services:

- ✓ Basic Engineering & Detailed Engineering
- ✓ Project Management
- ✓ Construction Supervision
- ✓ Procurement Assistance
- ✓ Expediting
- ✓ Store Warehousing
- ✓ Pre Commissioning and Commissioning
- ✓ Operation and Maintenance

# SHUTDOWN

Turnarounds and Shutdowns are major projects that require sound planning, execution, and control. They directly affect the bottom line of the company. Shutdown projects are usually short, from 1 month up to 6 months, and require significant deployment of experienced personnel. ShubRaj Tech is the preferred technical manpower solutions partner for shutdown projects in India. We regularly supply technical and operational professionals to large projects to meet their project shutdown needs. We have the capability to hundreds of shutdown project personnel within a minimum time. Our skilled personnel ensure that your project shutdown happens smoothly exactly as per the planned itinerary. ShubRaj Tech has been regularly carrying out shutdown projects for the last 05 years, especially for refineries and petrochemical plants. The experience we have gained ensures that we know how to successfully support clients throughout all stages of the Turnaround for projects in India.

ShubRaj Tech begins the recruitment process for every project shutdown by deeply analyzing the exact requirements and then clearly defining the deliverables and deadlines. Our focused methodology for identifying and deploying perfect technical manpower makes us the first choice for managing shutdown projects in India.

When it comes to handling turnarounds and shutdowns, companies require the assistance of highly ingenious and professional experts, as this phase is extremely critical for business revenue. If the shutdown or turnaround is not managed by experienced professionals, there is a possibility that it may exceed the planned duration, which will negatively impact the bottom line and cause a sizeable dent in the company's profits. Also, if production is stopped for a time longer than usual due to below-par technical manpower, competition can take advantage of this situation. Having the largest pool of quality resources ensures that we can take on a sizeable amount of additional work within the same shutdown schedule. ShubRaj Tech has deployed technical manpower for large-scale turnarounds and shutdown projects in India.

We can provide complete support for the following manpower during Shutdown / Turnaround:

- ✓ Inspection Engineers
- ✓ Maintenance Engineers & Technicians
- ✓ Safety Engineers / Supervisors
- ✓ Planning Engineers.
- ✓ Plant Inspectors (API 650)
- ✓ Scaffolders
- ✓ Riggers

# CONSTRUCTION SUPERVISION

Site supervisors/erection personnel are required during the construction phase of the project for a very specific period and it's a very specialized job. Each project needs a person with specific skill set and industry background. Project span may be 12 to 36 months and requirements may vary in the course of the project.

Supervision and monitoring of site contractor's work during civil construction, erection of mechanical, electrical, and instrumentation equipment, piping, cabling, etc. is very important and ShubRaj Tech can deploy specialized personnel for the same.

ShubRaj Engineers have been associated with the following Industrial construction projects:

- ✓ Oil & Gas
- ✓ Metals & Minerals
- ✓ Fertilizer
- ✓ Telecom
- ✓ Refinery
- ✓ Petrochemical
- ✓ Pipeline
- ✓ Infrastructure
- ✓ Power
- ✓ Renewable Energy
- ✓ Cement
- ✓ Metro
- ✓ Mono Rail
- ✓ Railways
- ✓ CGD
- ✓ CNG
- ✓ Automobile
- ✓ Ports and Terminals

ShubRaj can deploy engineers in the following fields:

- ✓ Civil & Structural
- ✓ Electrical
- ✓ Mechanical
- ✓ Piping
- ✓ Static & Rotary Equipment
- ✓ Tower
- ✓ Tankage
- ✓ Instrumentation & Control

# Experience
